REN-O-THIN POWER RAKE

Built for years of reliable operation, the Ren-O-Thin® Power Rake is the industry leader in efficient dethatching.

The Ren-O-Thin Power Rake offers performance that boosts your bottom line. An easy-to-operate height adjustment lets you fine-tune depth from 1 inch above the ground to 7/8 inch below. Both models come standard with fixed blades. An optional flail blade kit is available. The ergonomic, multi-position handle is designed for different user heights, and folds for storage and transport. Tines can be lifted off the ground and locked when in transport mode. The Ren-O-Thin® comes with either Honda® or Briggs & Stratton® Vanguard™ performance engines that add to the quality, durability and trust RYAN® delivers.

An easy-on, easy-off seed box accessory is available with handle mounted controls to regulate seed flow.

Infinite height adjustment allows you to change the height of the deck to obtain the best performance.

An easy fold up and down handle allows for easy transporting of the unit (shown with optional seed box accessory).

The bubble shield prevents thatch from building up under the deck. A simpler design makes it easier to replace and maintain.
